## NOTES ON NEWS OF THE DAY.

THE Republican city primaries are called to meet at the usual places next Friday evening. These are the places in which the voter can make his influence felt from the beginning to the end of the campaign. Well attended primaries indicate enthusiasm and presage victory.

OCTOBER 17th has been designated by the County Committee for the holding of the Republican County Convention. Candidates for the offices of County Judge, District Attorney, Coroners (2) and a Justice of Sessions are to be nominated. The call of the committee appears elsewhere.

THE Democratic party of St. Louis have brought the charge against the Democratic City Attorney, James J. Butler, that he is protecting gamblers. The police have been raiding the gamblers for months, but have not secured a single conviction. Last Saturday night they arrested eight men, but the cases were thrown out of court. Has a second John R. Fellows risen in St. Louis?

THE centres of the West Indies cyclones were located west and south of Havana yesterday. At eight o'clock last night one of them was centred in the East Gulf, moving west northwest. Maximum velocities of 34 to 36 hours were reported on the Florida coast. The westward movement, if continued, will quiet the alarm that was felt in New York and along the Atlantic coast yesterday.

THE Republicans of Troy are moving for the indictment of Willard, the Police Superintendent who caused Republican voters to be driven back from the polls with clubs last fall, to make room for Democratic repeaters. Fourteen witnesses against Willard went to Buffalo yesterday to testify before the United States grand jury. If Willard gets his deserts there will be a fair election in Troy next November.

THE high license movement in Maryland is taking definite and encouraging shape. Cardinal Gibbons has endorsed it, the Baltimore grand jury has advocated it as the only remedy against the drink evil, and now the prohibitionists announce their willingness to support it as a means of partially suppressing the liquor traffic. It is apparent that Democratic Maryland will soon be able to unload several hundred of her cheap, nasty and vicious saloons upon the state of New York.

THE Paris *Secede* is disturbed over what the Congress of American nations soon to meet at Washington may do. "Our government," it says, "has undoubtedly sent the necessary instructions to its agents in America, and will make earnest representations to Minister Reid to prevent the success of these projects, which would entail an annual loss to the trade of France of 100,000,000 francs." All of which will encourage the United States to make the Congress a success, as this trade naturally belongs on this side of the Atlantic.

DELLA WALKER, aged 19, beautiful and accomplished, committed suicide last Friday night by drowning at Langdon, N. H., where she was spending her school vacation with her parents. She had spent five years in the Vermont Academy, Smith College and the Boston Art Museum. She was to return to the latter institution this week. Miss Walker was an intimate friend and schoolmate of Miss Skinner of Keene and Miss Walker of Springfield, both of whom killed themselves last winter. Did these young ladies form a suicidal syndicate, or is suicide a contagious mania, transmitted from friend to friend?

BISHOP FOWLER of San Francisco, who has recently made a tour of China, predicts serious trouble between that country and the United States over the Chinese exclusion act. The greatest price in China said to him: "We are looking after our home interests now. Ten years will put China in shape as to her interior arrangements; then we will look after our outside interests." The Bishop says they are making great gains and iron clads and manning them. "In ten years," he adds, "the country with one-third the inhabitants of the globe will be ready to ask us what we mean by trifling with her treaty."

CONNECTICUT will vote upon the Prohibition amendment on the first Monday in October. But neither the friends nor enemies of the measure are making any canvass. The results in Massachusetts, Rhode Island, New Hampshire and Pennsylvania were so decisive that it appears to be taken for granted everywhere that the amendment will be defeated. But perhaps its friends are making a still hunt. Prohibition would nearly fit the fame of the "Land of Steady Habits." The new secret ballot law will be tried for the first time at this election. It is a measure closely resembling the Linson bill introduced at Albany last winter.

THE New York grand jury yesterday found indictments against Mrs. Eva Hamilton, Joshua Mann and Mrs. Swinton for conspiracy to defraud Robert Ray Hamilton. Another indictment charging larceny in the second degree was found against all three. At Atlantic City Mrs. Hamilton was indicted for a "serious assault upon the nurse Donnelly." Mrs. Hamilton is still locked up at May's Landing, and a warrant for her arrest was sent out from New-York. Mr. Hamilton arrived at M. Y.'s Landing yesterday, but said he had not come to defend her. He leaves her to her fate, and will not interfere to save her from prison.

MAJOR WARNER has declined the office of Pension Commissioner. He really could not afford to accept it, as it would cause an immediate loss of \$50,000 to his law firm. The government can get good men without causing such a sacrifice. It is also well for the administration that Warner declines. Coming from Missouri as the neighbor and personal friend of Secretary Noble, who forced Tanner out, the latter would have been accused of personal motives, and a big scandal raised. The Democrats were "lying low" and waiting to ocrats were the Warner appointment. The jump upon him is now believed to be Gen. George S. Merrill of Massachusetts. The Democrats will have to hunt with something stronger than a calcium light to find flaws in Merrill's record.

## PRESIDENT AT DEER PARK.

## DOCTORS AND CARE OF THE INSANE.

A Long Address in Reference to Past and Prospective Legislation.

By Telegram to The Freeman.

ROCHESTER, Sept. 17.—The semi-annual meeting of the New York State Homeopathic Medical Society was opened in the Chamber of Commerce rooms to-day. President H. M. Dayfoot, of this City, presided, and Dr. John L. Moffatt, of Brooklyn, acted as Secretary. The session was opened with prayer by the Rev. A. H. Strong, D. D. To his address President Dayfoot said it is well known that certain life insurance companies will not accept homeopathic physicians as examiners. Having for several years enjoyed the opportunity to judge regarding the value of medical examinations in life insurance, he is prepared to assert, without fear of contradiction, that the average homeopathic physician of this State will make as trustworthy an examination as can be made. The speaker continued at length.

Regarding the State care of the insane Dr. Dayfoot said: "At the last session of the State Legislature a measure known as the Batcheller bill was introduced, providing for the transfer of all insane under County care to the custody of the State, excepting in the counties of New-York, Kings and Monroe. This bill, supported by the States Charities Aid Association, the medical profession, the press and humane public generally, passed the Senate but was defeated by a small majority in the Assembly. The opposition to the measure came chiefly from County Superintendents of the Poor, on the plea of economy, claiming that county care could be given cheaper than care by the State. The issue involved in the Batcheller bill will certainly come up next winter, and should receive the support of this Society, provided, always, that the plan would in no wise interfere with the rights, prerogatives and privileges of the State Homeopathic Asylum for the Insane at Middletown, N. Y. That it will not be evidenced by the expression of one of the most prominent advocates of the measure, who says: 'The friends of the proposed legislation are, I believe, the friends of or for the State Homeopathic Asylum, and have no wish to see legislation the world will in the near future have to be written in the plural, and that there will be more than one homeopathic hospital for the acute insane.'"

## PRESIDENT HARRISON AT DEER PARK

He Receives Callers who Came on Important Business.

By Telegram to The Freeman.

DEER PARK, N. Y., Sept. 17.—After attending to his morning mail President Harrison gave the day to receiving callers. Assistant Post Master General Clarkson and E. W. Mason came from Chicago on the morning train. General Clarkson went at once to the cottage to lay before the President the report of the Commissioners organized to look into the "baggage" of increased mail facilities. Another object of his visit was to urge the making of Chicago appointments. Congressmen came to call after General Clarkson concluded his interview. Hon. Christopher to urge the appointment of Warner as Internal Revenue Collector and General R. M. Pierson as appraiser at Chicago. The Senators and Representatives of Illinois apportion both of the offices to Mr. Mason's Congressional District.

## Turbulent Ex-Strikers in London.

By Cable to The Freeman.

LONDON, Sept. 17, 800X.—Early this morning the striking dockmen appeared at the docks and went to work peacefully with the "black legs." Very few men appeared outside the docks, and they were quiet. The strikers and "black legs" on the south-west India dock became involved in a dispute with the men who had been on strike drove the "black legs" out of the dock. The police interfered and quelled the disturbance. The strikers then withdrew, and the "black legs" resumed work. When the striking workmen were about to resume work at the Albert dock they found a number of "black-legs" employed there. The strikers attacked the "black-legs" and chased them from shed to shed. Several of the "black-legs" received injuries which necessitated their removal to a hospital. The men who made the assault were discharged.

## Railroad Rates.

By Telegram to The Freeman.

CHICAGO, Sept. 17.—A morning paper says: It was learned yesterday that the Erie Dispatch, Lehigh Valley and the New-York Ontario & Western roads had published through tariffs from the seaboard to St. Paul via the Chicago, Burlington & Northern, meeting the rates of the Canadian roads. The through first class rate will be 85 cents and the fact that the Burlington & Northern has quite certain that the low rates in the Northwest have come to stay. The feeling in railroad circles is not hopeful. It is felt that the roads have entered upon a long and bitter fight against their Canadian rivals.

## Footish Freight Handlers.

By Telegram to The Freeman.

BUFFALO, Sept. 17.—There was nothing new this morning in the strike of the Central Railroad freight handlers, and the company is not likely to concede to the demands of the men for extra pay on Sundays. The money has been sent from New-York, to pay them off, and it was expected to arrive to-day. Extra police are on duty in the vicinity of the freight house, but there has been no sign of trouble thus far.

## Forest Fires in California.

By Telegram to The Freeman.

SAN FRANCISCO, Sept. 17.—Fires are raging near Spring Valley Lake, Ventura County, Sonoma County and other parts of the State. Miles of fences, considerable timber and many houses have been destroyed.

## Killed on the Rail.

By Telegram to The Freeman.

ATLANTA, Ga., Sept. 17.—The south bound Central freight train was derailed near here about midnight. It ran into a cross-tie placed across the track. The engineer, fireman and brakeman were killed.

## A Tussle With a Convict.

By Telegram to The Freeman.

BURLINGTON, Ind., Sept. 17.—Deputy Sheriff Tate upon entering a cell in the Fremont County Prison at Sidney, Ia., yesterday, was jumped on and nearly pounded to death by a convict named Haynes.

## ABOUT EXECUTIONS BY ELECTRICITY.

What an Englishman Had to Say on the Subject To-Day.

By Cable to The Freeman.

LONDON, Sept. 17.—In a discussion before the British Association on the question of electricity, W. H. Preece, Chief Electrician of the Post-Office Department, said the act recently passed by the New-York Legislature providing for the execution of condemned murderers by electricity would have to be rescinded. He claimed it was impossible to get a current of sufficient intensity to kill a man with certainty. He had experimented with an enormous induction coil, and had tried with a spark 20 inches long to kill a pig, but could not. He knew of several instances of persons taking shocks and who at the time were supposed to have been killed, but who were quite well afterwards. He said the sensational reports published in the newspapers about people being killed by shocks from electric wires had, upon investigation, been found to be nonsense.

## Tally One for this Tramp.

By Telegram to The Freeman.

DES MOINES, Ia., Sept. 17.—While an unknown tramp was walking on the Chicago & North-Western track from Council Bluffs to Missouri Valley, he found a broken rail on a high embankment, where the rail makes a sharp curve. It was an outside rail next to the River, and no train could have passed in safety. The next train due was the limited express, and the tramp resolved to avert a wreck. He ran to the River, and, three miles distant and tried to find the operator, who was not at his post. He then aroused the section hands, and they took a hand-car and went back to the broken rail, arriving there just in time to flag the limited and stop it within a few feet of almost certain destruction.

## A Defaulter Confesses His Guilt.

By Telegram to The Freeman.

EAST SAGINAW, Mich., Sept. 17.—Robert Laughlin, Superintendent of the Saginaw, Tuscola & Huron Railway, today admitted his resignation Saturday. Informal talk as to his successor brought prominently forward the name of Charles N. Rice, Auditor and General Freight and Passenger Agent of the Road, a young man who has worked up from the ranks of the railway, and whose unlimited confidence had been placed. Realizing that the change contemplated would result in the election of another Auditor and an expose of his books, Rice confessed to a defalcation of \$5,000. Rice gives no explanation of his conduct, only saying that he needed the money and took it, expecting to return it in the future.

## The Death Record.

John W. Lane, a Washington millionaire, died on Sunday night.

Mrs. Mary Ann Robinson, one of the first settlers of the Isles of Shoals, died last night, aged 75 years.

The Rev. J. W. Blincoe, one of the most prominent ministers of the Methodist Episcopal Church South, died in Ashland, Va., on Sunday.

## Dr. George J. Janeway died in New-Brunswick, N. J., at the age of 83 years.

Prince Gunther, of Schwarzburg, died at Berlin yesterday.

The Right Rev. John Fiedler Mackensen, D. D., lately Bishop of Oxford, is dead.

## Borrowing Trouble Perhaps.

By Telegram to The Freeman.

NEEDLES, Cal., Sept. 17.—Prominent citizens of Hackberry, Ariz., have telegraphed to Kingston for arms and ammunition. The Huachuca Indians have been holding a big pow-wow and war dances in the mountain near Hackberry for weeks and though it was called a dance for rain the old settlers have predicted trouble. Lieutenant Hersey, of Fort Mojave, is at Hackberry and says trouble with the Indians is inevitable. The citizens of Hackberry are fortifying and sending their families away.

## Verdict Against Middleton.

By Telegram to The Freeman.

WATERTOWN, N. Y., Sept. 17.—Ex-Conductor Middleton's suit against the Rome, Watertown & Ogdensburg Railroad for \$130 salary, which was withheld from him when he was discharged from the service a year ago, has resulted in favor of the Railroad Company, the testimony of Pinkerton detective have shown that the plaintiff failed to report fares collected on the train amounting in one month to more than the sum withheld from him.

## In Favor of a Divorce Court.

By Telegram to The Freeman.

OTTAWA, Sept. 17.—Chief Justice Armour, of the Court of Queen's Bench, said yesterday he favored establishing a Divorce Court in Canada. He would grant divorce in matrimonial causes and would regard as bad as adultery.

## Montreal, Sept. 17.—The Provincial Synod of the Church of England here last night discussed a canon dealing with divorce.

## Congressmen Given a Reception.

By Telegram to The Freeman.

GETTYSBURG, Pa., Sept. 17.—The visiting Congressional party, including Messrs. Allen, of Mississippi, Baker, of New-York, Springer, of Illinois, Mansur, of Missouri, and Perkins and Patterson, of Kansas, were tendered a public reception yesterday afternoon during which the citizens of Gettysburg to the Congressional legislation desired to benefit the Territory.

## Concerning a Schooner.

By Telegram to The Freeman.

NORFOLK, Va., Sept. 17.—It is believed the schooner passed off Chincoteague on Sunday water-logged and abandoned. The schooner was owned by Captain Inslee, which sailed from this port on September 4 for New-York City with a cargo of pine. A body, supposed to be that of Captain Inslee, was found on the beach in an advanced state of decomposition.

## Alleged Madress Acquitted.

By Telegram to The Freeman.

KANSAS CITY, Sept. 17.—Alice Dyke, on trial for the third time for the murder of John Hamilton two years ago, was acquitted last night. The first trial, resulted in a conviction and a sentence of 15 years in the penitentiary. The second jury could not agree and the third rendered a verdict of not guilty. The prisoner claimed self defense.

## The Cruiser Charleston.

By Telegram to The Freeman.

SAN FRANCISCO, Sept. 17.—Commodore Buchanan, Captain Watson, Chief Engineer Kouts and Naval Constructor Pfister have forwarded their report on the recent trial trip of the cruiser Charleston to the Secretary of the Navy. The report is enthusiastic.

THE REPUBLICANS OF NEW-JERSEY

Nominate General E. Burd Grubb for Governor—The Proceedings.

By Telegram to The Freeman.

TRENTON, N. J., Sept. 17.—The delegates to the Republican State Convention were assembled this morning and by 10 o'clock the vicinity of the leading hotels was made lively with the music of bands. The Grubb men are still full of confidence and declare the situation to-day, since the arrival of all the delegates, is more favorable even than last night. Magowan and Keen are still in the fight, with the understanding whichever develops the greater strength in the Convention will receive the other's support against Grubb. The platform is nearly complete. The interesting point is the liquor question on which the Committee have decided to pledge the Convention to stand by the record of the last Legislature and the National Platform, which means practically a declaration in favor of local option.

The Convention met at noon in the Taylor Opera House. Among those on the platform were General E. Burd Grubb and Congressman Keen. The Opera House was early decorated, and at either side of the stage were portraits of Lincoln and Harrison. Garrett A. Hobart, Chairman of the State Committee, called the Convention to order and prayer was offered. Joseph H. Gaskill, of Burlington, was chosen Temporary Chairman. Mr. Gaskill said Lincoln raised the slaves from servitude, while Harrison represents the principle to raise American workmen from an almost equal servitude to-day. Mention of the names of the different gubernatorial candidates raised something of a storm, each faction cheering for its candidate.

General E. Burd Grubb was nominated for Governor.

## PRESIDENT AT DEER PARK.

## DOCTORS AND CARE OF THE INSANE.

A Long Address in Reference to Past and Prospective Improvements.

ROCHESTER, Sept. 17.—The semi-annual meeting of the New-York State Homeopathic Medical Society was opened in the Chamber of Commerce rooms to-day. President H. M. Dayfoot, of this City, presided, and Dr. John L. Moffatt, of Brooklyn, acted as Secretary. The session was opened with prayer by the Rev. A. H. Strong, D. D. In his address President Dayfoot said it is well known that certain life insurance companies will not accept homeopathic physicians as examining. Having for several years enjoyed the opportunity to judge regarding the value of medical examinations in life insurance, he is prepared to assert, without fear of contradiction, that the average homeopathic physician of this State will make as trustworthy an examination as can be made. The speaker continued at length.

Regarding the State care of the insane Dr. Dayfoot said: "At the last session of the State Legislature a measure known as the Batcher bill was introduced, providing for the transfer of all insane under County care to the care of the State, excepting in the counties of New-York, Kings and Monroe. This bill, supported by the States Charities Aid Association, the medical profession, the press and humane public generally, passed the Senate but was defeated by a small majority in the Assembly. The opposition to the measure came chiefly from County Superintendents of the Poor, on the plea of economy, claiming that county care could be given cheaper than care by the State. The issue involved in the Batcher bill will certainly come up next winter, and should receive the support of this Society, who says, 'always, that the plan would in no wise interfere with the rights, prerogatives and privileges of the State Homeopathic Asylum for the Insane at Middletown, N. Y.' That it will not be evidenced by the expression of one of the most prominent advocates of the measure, who says: 'The friends of the proposed legislation are, I believe, the friends of or for the State Homeopathic Asylum. Let us hope with new legislation the word will in the near future have to be written in the plural, and that there will be more than one homeopathic hospital for the acute insane.'

## PRESIDENT HARRISON AT DEER PARK.

## He Receives Callers who Came on Important Business.

DEER PARK, Md., Sept. 17.—After attending to his morning mail President Harrison gave the day to receiving callers. Assistant Post Master General Clarkson and E. W. Mason came from Chicago on the morning train. General Clarkson went at once to the cottage to lay before the President the report of the Commissioners organized to look into Chicago's need for increased mail facilities. Another object of his visit was to urge the making of Chicago appointments. Congressman Mason came to call after General Clarkson concluded his interview. He wished to urge the appointment of "Hon. Christopher Warner as Internal Revenue Commissioner. General R. M. Pierson as appraiser at Chicago. The Senators and Representatives of Illinois apportion, both of the offices to Mr. Mason's Congressional District.

## Turbulent Ex-Strikers in London.

## By Cable to The Freeman.

LONDON, Sept. 17, noon.—Early this morning the striking dockmen appeared at the docks and went to work peacefully with the "black legs." Very few men appeared outside the docks, and they were quiet. The strikers and "black legs" on the south-west India dock became involved in a dispute, and the men who had been on strike drove the "black legs" out of the dock. The police interfered and quelled the disturbance. The strikers then withdrew, and the "black legs" resumed work. When the striking workmen were about to resume work at the Albert dock they found a number of "black legs" employed there. The strikers attacked the "black legs" and chased them from shed to shed. Several of the "black legs" received injuries which necessitated their removal to a hospital. The men who made the assault were discharged.

CHICAGO, Sept. 17.—A morning paper says: It was learned yesterday that the Erie Dispatch, Lehigh Valley and the New-York Ontario & Western roads had published through tariffs from the seaboard to St. Paul via the Chicago, Burlington & Northern, meeting the rates of the Canadian roads. The through first class rate will be 85 cents and the fact that the Burlington & Northern has at last secured allies in the East makes it quite certain that the low rates in the North-road circles is not hopeful. It is felt that the roads have entered upon a long and bitter fight against their Canadian rivals.

## ABOUT EXECUTIONS BY ELECTRICITY.

## What an Englishman Had to Say on the Subject To-Day.

LONDON, Sept. 17.—In a discussion before the British Association on the question of electricity, W. H. Preece, Chief Electrician of the Post-Office Department, said the act recently passed by the New-York Legislature providing for the execution of condemned murderers by electricity would have to be rescinded. He claimed it was impossible to get a current of sufficient intensity to kill a man with certainty. He had experimented with an enormous induction coil, and had tried with a spark 30 inches long to kill a pig, but could not. He knew of several instances of persons taking shocks and who at the time were supposed to have been killed, but who were quite well afterwards. He said the sensational reports published in the newspapers about people being killed by shocks from electric wires had, upon investigation, been found to be nonsense.

## Tally One for This Tramp.

## By Telegram to The Freeman.

DES MOINES, Ia., Sept. 17.—While an unknown tramp was walking on the Chicago & North Western track from Council Bluffs to Missouri Valley, he found a broken rail on a high embankment, where the rail makes a sharp curve. It was an outside rail next to the river, and the train could have passed in safety. The next train due was the limited express, and the tramp resolved to avert a wreck if possible. He ran to Honey Creek, three miles distant and tried to find the operator. He was not at his post. He then aroused the section hands, and they took a hand-car and went back to the broken rail, arriving there just in time to flag the limited and stop it within a few feet of almost certain destruction.

## A Defaulter Confesses His Guilt.

EAST SAGINAW, Mich., Sept. 17.—Robert Laughlin, Superintendent of the Saginaw, Tuscola & Huron Railway, tendered his resignation Saturday. Informal talk as to his successor brought prominently forward the name of Charles N. Rice, Auditor and General Freight and Passenger Agent of the Road, a young man who has worked up from an inferior position, and in whom unlimited confidence had been placed. Realizing that the change contemplated would result in the election of another Auditor and an exposure of his books, Rice confessed to a defalcation of \$5,000. Rice gives no explanation of his conduct, only admitting that he needed the money and took it, expecting to return it in the future.

TRENTON, N. J., Sept. 17.—The delegates to the Republican State Convention were astir early this morning and by 10 o'clock the vicinity of the leading hotels was made lively with the music of bands. The Grubb men are still full of confidence and declare the situation to-day, since the arrival of all the delegates, is more favorable even than last night. Magowan and Kean are still in the fight, with the understanding whichever develops the greater strength in the Convention will receive the other's support against Grubb. The platform is nearly complete. The interesting point is the liquor question on which the Committee have decided to pledge the Convention to stand by the record of the last Legislature and the National Platform, which means practically a declaration in favor of local option.

The Convention met at noon in the Taylor Opera House. Among those on the platform were General E. Burd Grubb and Congressman Kean. The Opera House was gaily decorated, and at either side of the stage were portraits of Lincoln and Harrison. Garret A. Hobart, Chairman of the State Committee, called the Convention to order and prayer was offered. Joseph H. Gaskill, of Burlington, was chosen Temporary chairman. Mr. Gaskill said Lincoln raised the slaves from servitude, while Harrison represents the principle to raise American workmen from an almost equal servitude to day. Mention of the names of the different gubernatorial candidates raised something of a storm, each faction cheering for its candidate.

## NOTES ON NEWS OF THE DAY.

The Republican city primaries are called to meet at the usual places next Friday evening. These are the places in which the voter can make his influence felt from the beginning to the end of the campaign. Well attended primaries indicate enthusiasm and presage victory.

OCTOBER 17th has been designated by the County Committee for the holding of the Republican County Convention. Candidates for the offices of County Judge, District Attorney, Coroners (2) and a Justice of Sessions are to be nominated. The call of the committee appears elsewhere.

The Democratic police of St. Louis have brought the charge against the Democratic City Attorney, James J. Butler, that he is protecting gamblers. The police have been raiding the gamblers for months, but have not secured a single conviction. Last Saturday night they arrested eight men, but the cases were thrown out of court. Has a second John R. Fellows risen in St. Louis?

Two centres of the West Indies cyclones were located west and south of Havana yesterday. At eight o'clock last night one of them was centred in the East Gulf, moving west-northwest. Maximum velocities of 34 to 36 hours were reported on the Florida coast. The westward movement, if continued, will quiet the alarm that was felt in New York and along the Atlantic coast yesterday.

The Republicans of Troy are moving for the indictment of Willard, the Police Superintendent who caused Republican voters to be driven back from the polls with clubs last fall, to make room for Democratic repeaters. Fourteen witnesses against Willard went to Buffalo yesterday to testify before the United States grand jury. If Willard gets his deserts there will be a fair election in Troy next November.

The high license movement in Maryland is taking definite and encouraging shape. Cardinal Gibbons has endorsed it. The Baltimore grand jury has advocated it as the only remedy against the drink evil, and now the prohibitionists announce their willingness to support it as a means of partially suppressing the liquor traffic. It is apparent that Democratic Maryland will soon be able to unload several hundred of her cheap, nasty and vicious saloons upon the state of New York.

The Paris *Securite* is disturbed over what the Congress of American nations soon to meet at Washington may do. "Our government," it says, "has undoubtedly sent the necessary instructions to its agents in America, and will make earnest representations to Minister Reid to prevent the success of these projects, which would entail an annual loss to the trade of France of 100,000,000 francs." All of which will encourage the United States to make the Congress a success, as this trade naturally belongs on this side of the Atlantic.

DELLA WALKER, aged 19, beautiful and accomplished, committed suicide last Friday night by drowning at Langdon, N. H., where she was spending her school vacation, with her parents. She had spent five years in the Vermont Academy, Smith College and the Boston Art Museum. She was to return to the latter institution this week. Miss Walker was an intimate friend and schoolmate of Miss Skinner of Keene and Miss Walker of Springfield, both of whom killed themselves last winter. Did these young ladies form a suicidal syndicate, or is suicide a contagious mania, transmitted from friend to friend?

BISHOP FOWLER of San Francisco, who has recently made a tour of China, predicts serious trouble between that country and the United States over the Chinese exclusion act. The greatest prize in China, said to him: "We are looking after our home interests now. Ten years will put China in shape as to her interior arrangements; then we will look after our outside interests." The Bishop says they are making great guns and iron glads and manning them. "In ten years," he adds, "the country will be one-third the inhabitants of the globe will be ready to ask us what we meant by trifling with her treaty."

CONNECTICUT will vote upon the Prohibition amendment on the first Monday in October. But neither the friends nor enemies of the measure are making any canvass. The results in Massachusetts, Rhode Island, New Hampshire and Pennsylvania were so decisive that it appears to be taken for granted everywhere that the amendment will be defeated. But perhaps its friends are making a still hunt. Prohibition would neatly fit the fame of the "Land of Steady Habits." The new secret ballot law will be tried for the first time at this election. It is a measure closely resembling the Lincoln bill introduced at Albany last winter.

THE NEW YORK grand jury yesterday found indictments against Mrs. Eva Hamilton, Joshua Mann and Mrs. Swinton for conspiracy to defraud Robert Ray Hamilton. Another indictment charging larceny in the second degree was found against all three. At Atlantic City Mrs. Hamilton was indicted for a "serious assault" on the nurse Donnelly. Mrs. Hamilton is still locked up at May's Landing, and a warrant for her arrest was issued from New-York. Mr. Hamilton arrived at May's Landing yesterday, but said he had not come to defend her. He leaves her to her fate, and will not interfere to save her from prison.

MAJOR WARNER has declined the office of Pension Commissioner. He really could not afford to accept it, as it would cause an immediate loss of \$50,000 to his law firm. The government can get good men without causing such a sacrifice. It is also well known that coming from Massachusetts as the neighbor and personal friend of Secretary Noble, who forced Tanner out, the Democrats were "lying low" and waiting to jump upon the Warner appointment. The coming man is now believed to be Gen. George S. Merrill of Massachusetts. The Democrats will have to hunt with something stronger than a calcium light to find flaws in Merrill's record.

## PROTEST FROM THE POPE.

THE REPUBLICANS OF NEW-JERSEY

Nominate General E. Burd Grubb for Gov.

By Cable to The Freeman.

TRENTON, N. J., Sept. 17.—The delegates to the Republican State Convention were astir early this morning and by 10 o'clock the vicinity of the leading hotels was made lively with the music of bands. The Grubbs are still full of confidence and declare the situation to-day, since the arrival of all the delegates, is more favorable even than last night. Magowan and Keen are still in the light, with the understanding whichever develops the greater strength in the Convention will receive the other's support against Grubb. The platform is nearly complete. The interesting point is the liquor question on which the Committee have decided to pledge the Convention to stand by the record of the last Legislature and the National Platform, which means practically a declaration in favor of local option.

The Convention met at noon in the Taylor Opera House. Among those on the platform were General E. Burd Grubb and Congressman Keen. The Opera House was gaily decorated, and at either side of the stage were portraits of Lincoln and Harrison. Garrett A. Hobart, Chairman of the State Committee, called the Convention to order and prayer was offered. Joseph H. Gaskill, of Burlington, was chosen Temporary Chairman. Mr. Gaskill said Lincoln raised the slaves from servitude, while Harrison represents the principle to raise American workers from an almost equal servitude to day. Mention of the names of the different gubernatorial candidates raised something of a storm, each faction cheering for its candidate.

General E. Burd Grubb was nominated for Governor.
